RE: Annual Compliance Certification – 40 CFR 63, Subpart GGGG
Bunge North America, Inc. – Emporia, KS Facility
Source ID No. 1110008

Dear Ms. Seeds,

In accordance with 40 CFR 63, Subpart GGGG, the attached Annual Compliance Certification is being submitted for the reporting period April 1, 2024 through March 31, 2025 for the above-referenced facility. The facility was in compliance with the compliance ratio for each month of the reporting period.

If you have any questions regarding this certification, please contact me at (620) 343-4121 or by email at tyler.gach@bunge.com.

Sincerely,

A handwritten signature in blue ink that reads "Tyler Gach". The signature is written in a cursive, flowing style.

Annual Compliance Certification Report

Date of Report: 5/7/2025

The physical address of the soybean oil production process:

Bunge North America (OPD West), Inc.
701 East 6th Avenue
Emporia, KS 66801

The owner/operator of the soybean oil production process is:

Bunge North America, Inc.
1391 Timberlake Manor Parkway
St. Louis, MO 63017

This report covers the periods beginning April 1, 2024 and ending March 31, 2025.

Soybean is the only oil seed type processed at the Emporia, KS facility during the 12 operating month reporting period.

n-Hexane is the only hazardous air pollutant (HAP) identified under §63.2854(a) as being present in concentrations greater than 1 percent by volume in each delivery of solvent received during the 12 calendar months period covered by this report.

Since the EPA has identified solvent extraction for vegetable oil production processes as major sources of a single HAP, n-hexane, the Emporia, KS Soybean Processing Facility is a major source of hazardous air pollutants.

Compliance Certification:

The following statements indicate whether the Emporia, KS Soybean Processing Plant was in compliance for each determination made during the 12-month period covered by this report (April 2024-March 2025). I certify the following:

1. The Emporia, KS facility followed the procedures described in the plan for demonstrating compliance.
2. The compliance ratio was less than 1.00 for each of the compliance determinations made during the 12 operating months covered by this report.
3. Based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate and complete.
