**RE: 30-Day Initial Fill and Inspection Notification for Tank 7901
CHS (Jayhawk/Kaw Pipeline) – Arnold Station
Source ID 1350047**

Dear Ms. Paden:

Pursuant to Subpart Kc of 40 CFR Part 60, CHS is providing 30-day notification that the newly constructed internal floating roof tank (Tank 7901) at the Arnold Station will be inspected and subsequently filled with product. Tank 7901 is a 20,000 barrel crude oil storage tank. An initial startup notification will be submitted after introducing oil to the storage tank.

If you have any questions or require additional information. You may contact me by telephone at (620) 241-9262 or via email at michael.hubenett@chsinc.com.

Respectfully Submitted,
